I. POLICY

Conflicts of interest for investigators, members of the study staff, and family members of the investigators and study staff must be disclosed to the Children’s National Medical Center (CNMC) Institutional Review Board (IRB) for review to assure elimination or appropriate management of the conflict.

The convened IRB has the final authority to decide whether the interest and its management, if any, allow the research to be approved.

Definition

Family member, for the purpose of this policy and procedure, means spouse and dependent children.

I. PROCEDURE

A. It is the Principal Investigator’s responsibility to assure all conflicts of interest are properly disclosed as required by Children’s National Medical Center (CNMC) policy.

B. All applicable financial interests are to be disclosed by faculty members and research staff annually, as per CNMC policy C-14 and C-14P, Conflict of Interest. The CNMC Corporate Compliance Officer will report to the IRB any disclosures of significant conflict of interest that may be relevant to human subjects research conducted at the institution.

C. Study-specific financial interests are to be disclosed for each individual listed on Form 1572 or its equivalent whenever a protocol is submitted to the office of Grants and Contracts Administration.

D. For studies reviewed at a fully convened meeting, the IRB will determine whether any reported conflict of interest has been adequately eliminated or managed. The board may require additional measures to manage the conflict prior to taking final action on the proposed research. The IRB Chair or his/her designee will make a similar determination for studies reviewed using an expedited process.
