The Joint GW-CNHS Biostatistics, Epidemiology, and Research Design (BERD) Tutorial Series Presents:

An Introduction to the Challenges and Opportunities of Studying Drug and Vaccine Safety in the Real World

with Scott Quinlan, PhD

This 50-minute tutorial will provide an introductory review of how drug and vaccine safety issues are identified and studied after FDA approval and initial market entry. The intended audience includes students and researchers with a knowledge of basic statistical methods who are interested in learning more about this growing area of drug and vaccine safety research. This session will be recorded and a link sent out after the session.

Date: Tuesday, March 20, 2018
